**The ultimate luxury
attainable for everyone**

If you can dream it, we can make it.

With Lumiere's line of acrylic pianos, we make the ultimate luxury attainable for everyone. These exquisitely designed acrylic pianos breathe modern chic while remaining extremely budget conscious. With Lumiere, we offer the best acrylic instruments at the most accessible price point. Lumiere pianos are built in Asia with German components to our stringent quality standards and design specifications. Color customizations, inside lighting, and player piano options are available.

Available sizes:

Parlor Grand – L 55" (168cm)
Professional Grand – L 61" (186cm)

If you like to make an entrance and hear everyone in the room gasp – you have found your match with the Lumiere model. Its bold, contemporary design makes this grand piano impossible to look away from. A true semitransparent piano, its body is wrapped in crystal clear acrylic, revealing the beauty of the iron frame like a jewel. The quality of German acrylic by Plexiglass makes this piano shine like a diamond, while German components, such as Abel hammers and Rosslau strings, give it a beautiful singing tone.

LUMIERE

Available sizes:

Baby Grand - L 4'10" (152cm)

Parlor Grand - L 5'5" (168cm)

Professional Grand - L 6'1" (186cm)

Stay Classy with Lumiere Classic. Like wearing a tuxedo with a glass slipper, Lumiere Classic holds its ground as both a traditionally elegant piano and one with the magical element - of crystal. The solid lacquered wood body gives it that timeless simplicity of the shape we have come to love the piano for. The acrylic legs, lid, music stand, lyre, and fallboard lend this instrument an aura of magic.

UPRIGHT

**Transparent, modern, exciting, and...affordable.
Give your home a real wow factor.**

The very thing that makes most upright pianos unattractive to people is what gives Lumiere Upright its character: the shape of the box. Once realized in acrylic, what used to be solid is now a transparent, light reflective kaleidoscope of crystal, metal, and wood. The upright's inner beauty is revealed by the transparency of its body, so for the first time ever, we can see the gorgeous iron frame, the strings, and the moving parts of the action!

When it is played, whether by a person or by a player system, it becomes a kinetic sculpture of elegantly moving parts captured within the crystal. The optional Light Kit provides even more magic.

Available size:
Studio upright - H 49" (125cm)
